Captains Log

Rules of Play 1.20 OBJECT BALL FROZEN TO CUSHION

- 1. If the first object ball contacted by the cue ball is frozen to a cushion, then after the cue ball makes contact with the frozen object ball: a. any object ball must be pocketed, or; b. the cue ball must contact a cushion, or; c. the frozen ball must contact a cushion attached to a separate rail, or; d. another object ball must contact a cushion.**
- 2. Any ball, including the cue ball, which is frozen to a cushion at the start of a shot and then is forced into a cushion attached to the same rail is not considered to have contacted that cushion unless it leaves the cushion, contacts another ball, and then contacts the cushion again.**

Rules of Play 1.21 CUE BALL FROZEN TO OBJECT BALL OR CUSHION

- 1. If the cue ball is frozen to a legal object ball, it is legal to shoot toward the object ball provided you use an otherwise legal stroke and no other foul is committed.**
- 2. If the cue ball is frozen to a cushion, it is legal to shoot the cue ball into the cushion provided you use an otherwise legal stroke and no other foul is committed.**
- 3. While the initial cue tip to cue ball contact of a stroke in the situations described in 1.21.1 and 1.21.2 is always legal, the presence of one or more object balls nearby may create the possibility of a violation of Rule 1.31 during the same stroke, but after the initial cue tip to cue ball contact.**
- 4. Shooting the cue ball away from an object ball that is frozen to the cue ball does not constitute contact with that object ball.**

Rules of Play 1.31 DOUBLE HIT

- 1. It is a foul if your cue tip strikes the cue ball more than once on the same stroke.**
- 2. It is a foul if your cue tip is still in contact with the cue ball when the cue ball strikes an object ball. However, if the cue ball and object ball are in close proximity to each other and the cue ball strikes the object ball at a very slight angle the shot will be considered legal provided no other foul is committed. During a play-off match, the referee is the sole judge of whether or not the angle taken results in a legal shot. The referee may not advise you concerning the angle taken for the shot.**
- 3. Close proximity is defined as a chalks width or less in length.**
